USER GUIDE TO AUTO-COPYING

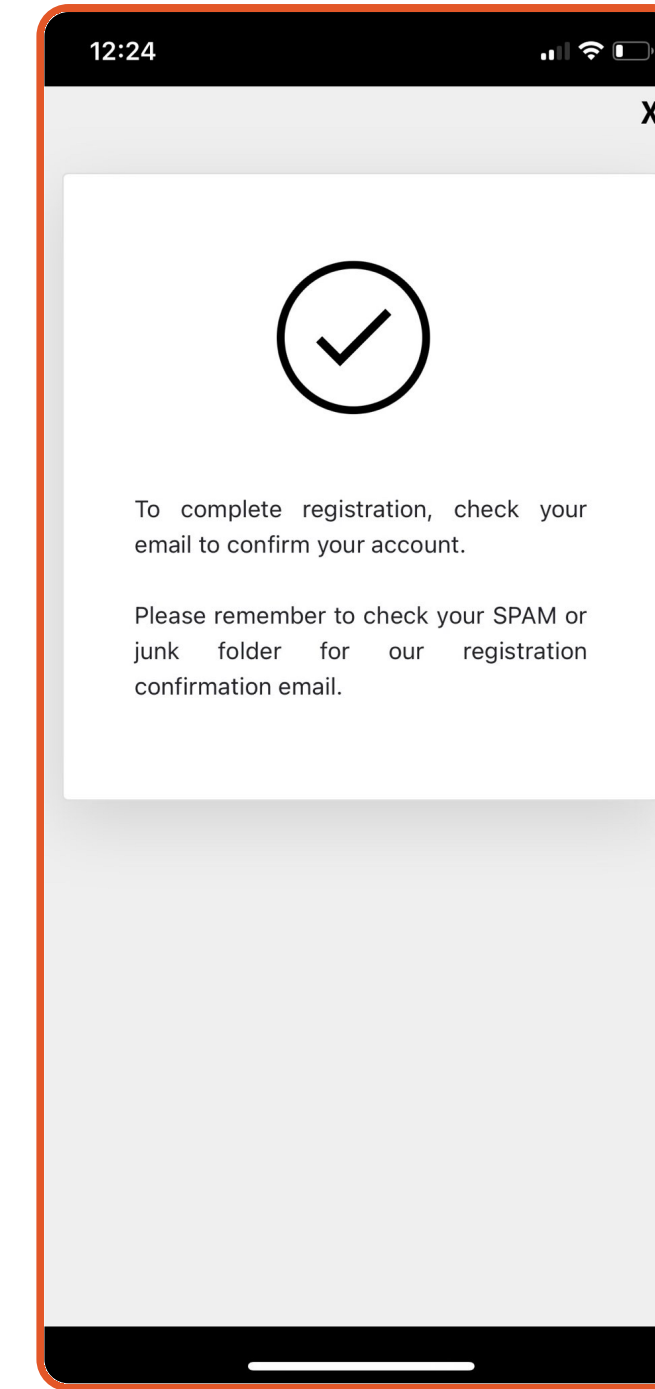

Register

1 Create your profile

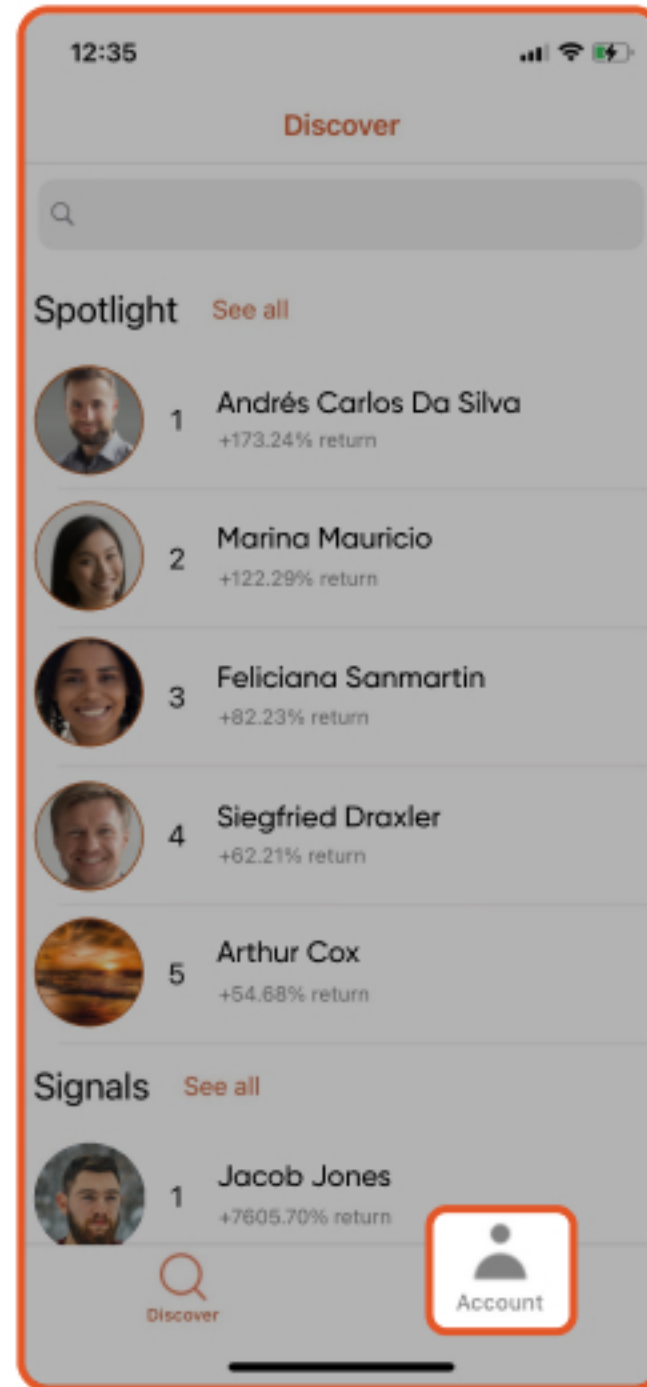

2 Enter your details for the first time

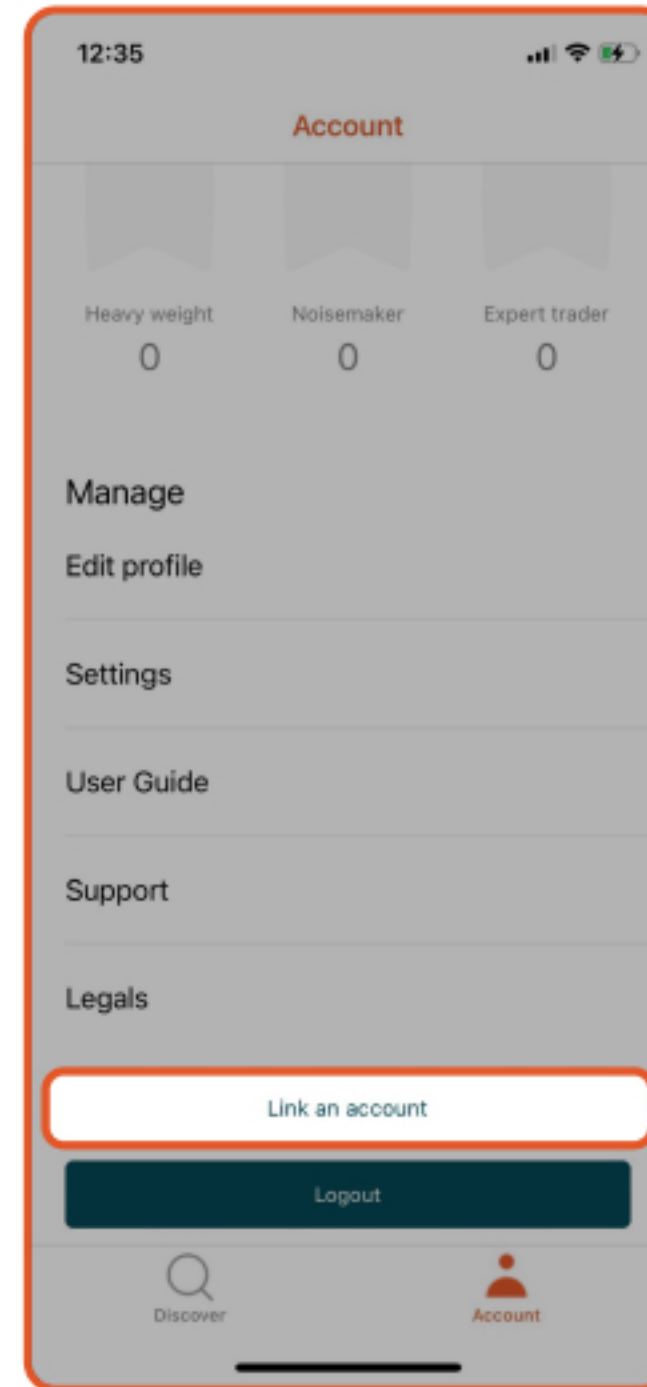

3 To complete the registration, please check on your registered email to confirm your account and return to the app to login

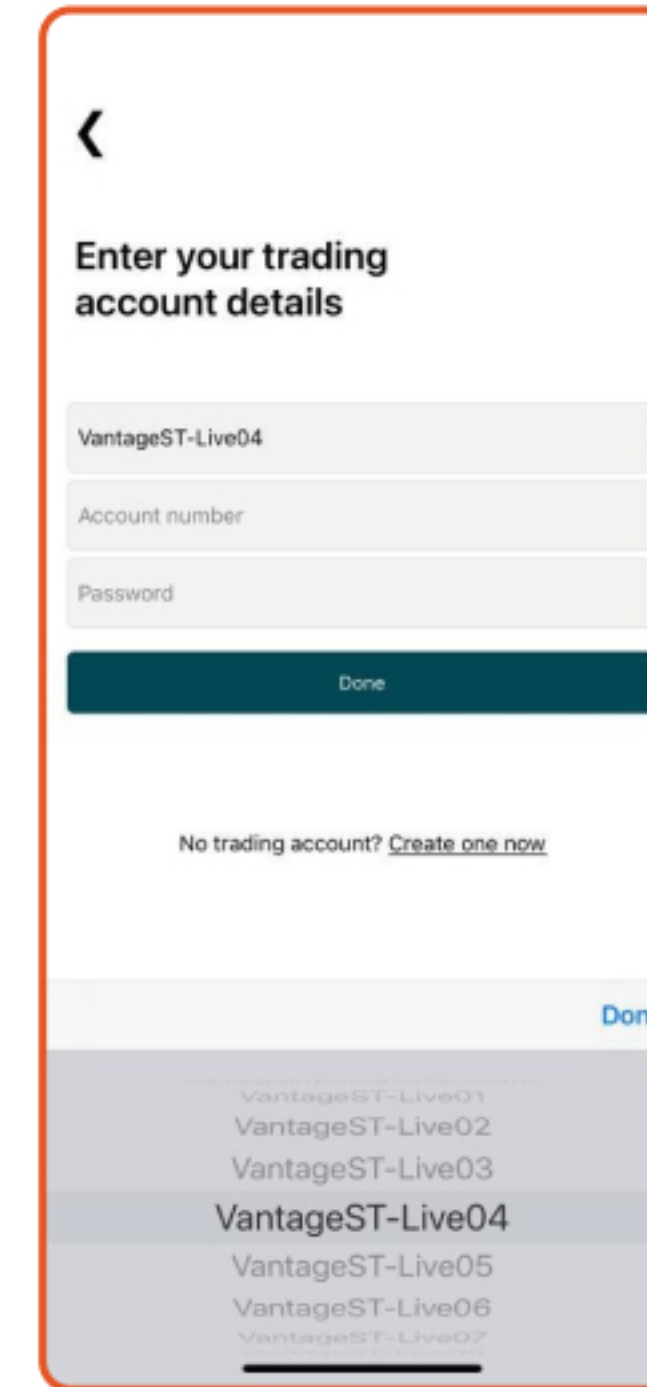

Connecting to MT4

1 Click on Account

2 Select Link an account to link MT4 account

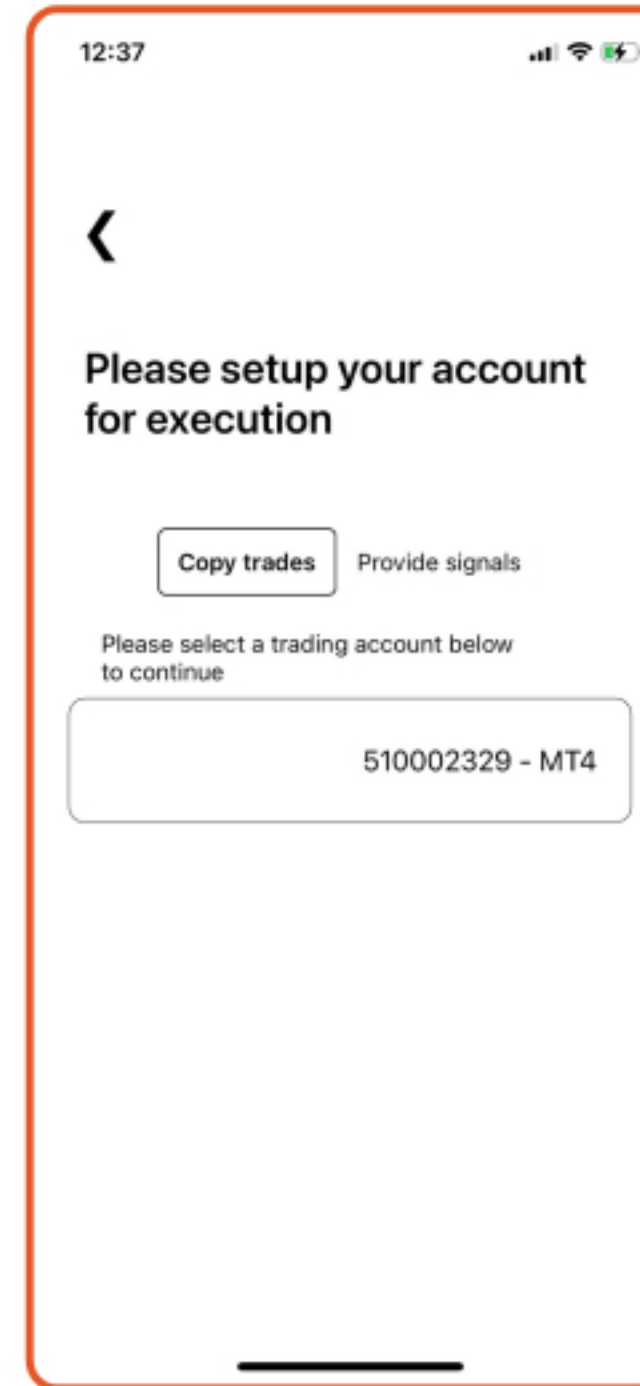

3 Select your server and enter your MT4 login and password

How to select the correct server:

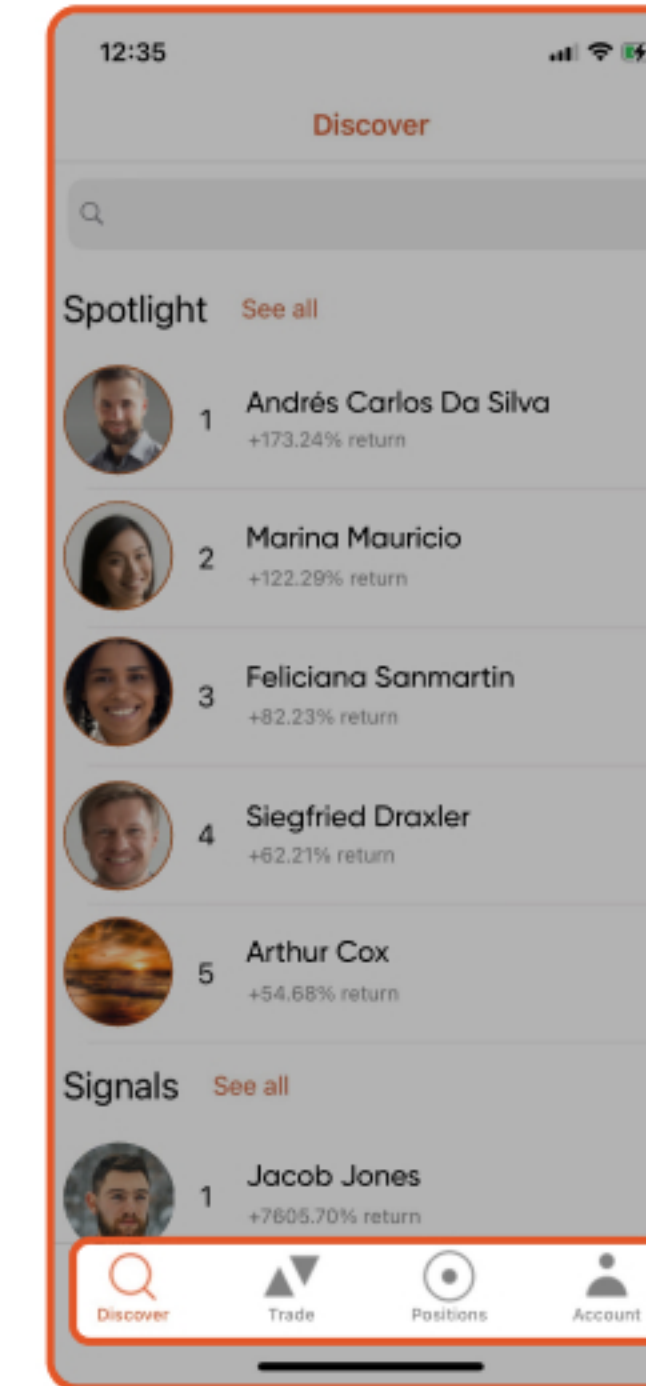

- VantageST-Live01
- VantageST-Live02
- VantageST-Live03
- VantageST-Live04
- VantageST-Live05
- VantageST-Live06
- VantageST-Live07
- VantageST-Live08
- VantageST-Live09
- VantageST-Live10
- VantageST-Live12
- VantageST-Live14

Connecting to MT4

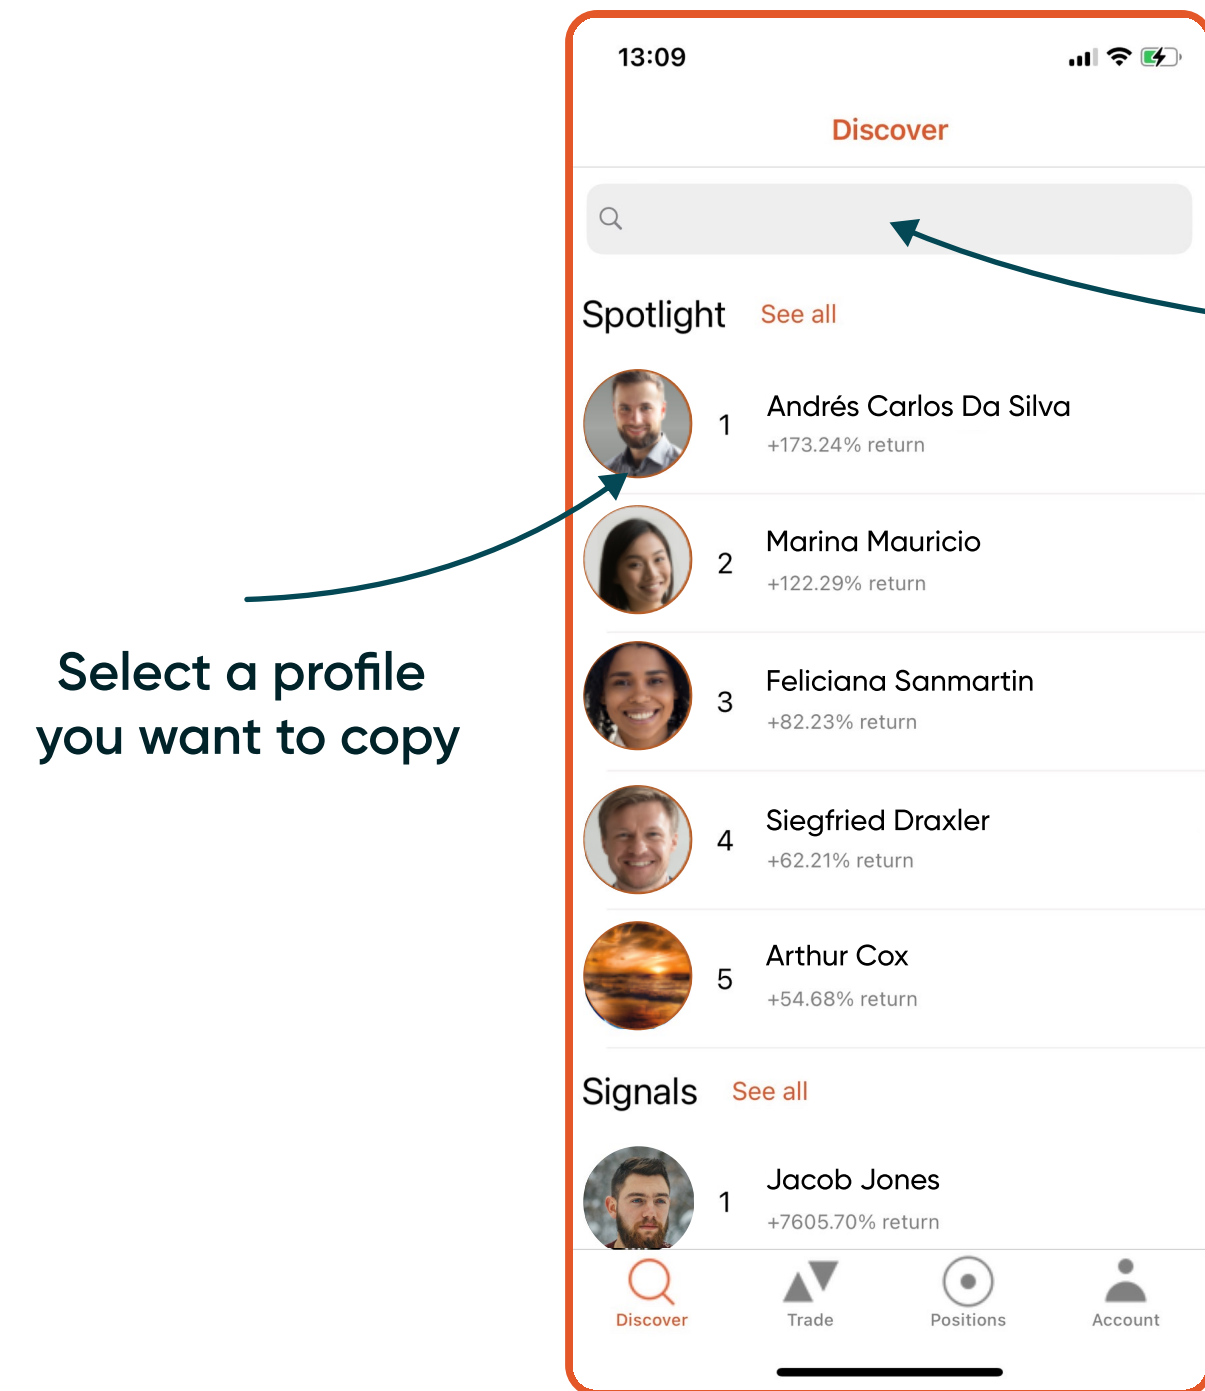

- 4 Select to be Copier / Signal and select the MT4 account

- 5 Once your MT4 account is linked successfully, it will display 4 tabs on bottom

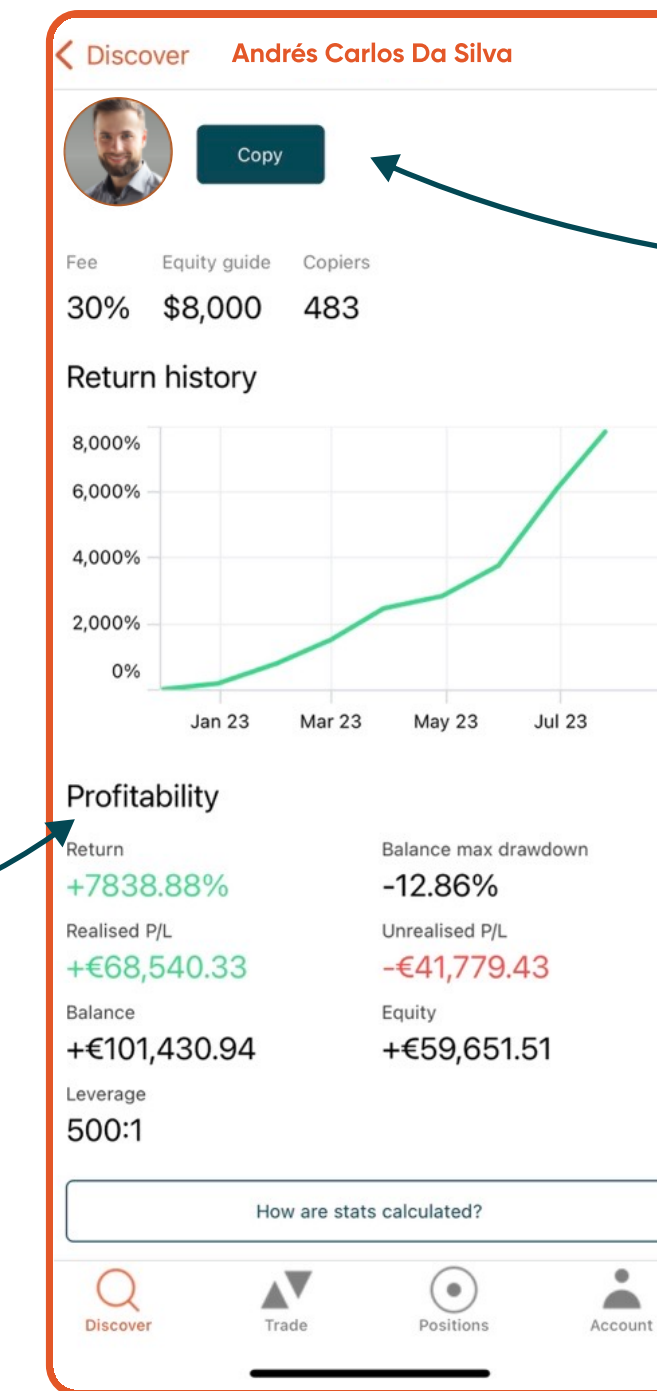

Discover

Select a profile you want to copy

Search friends, groups or mentors

1 Select a profile you want to copy

Select copy

Trading stats

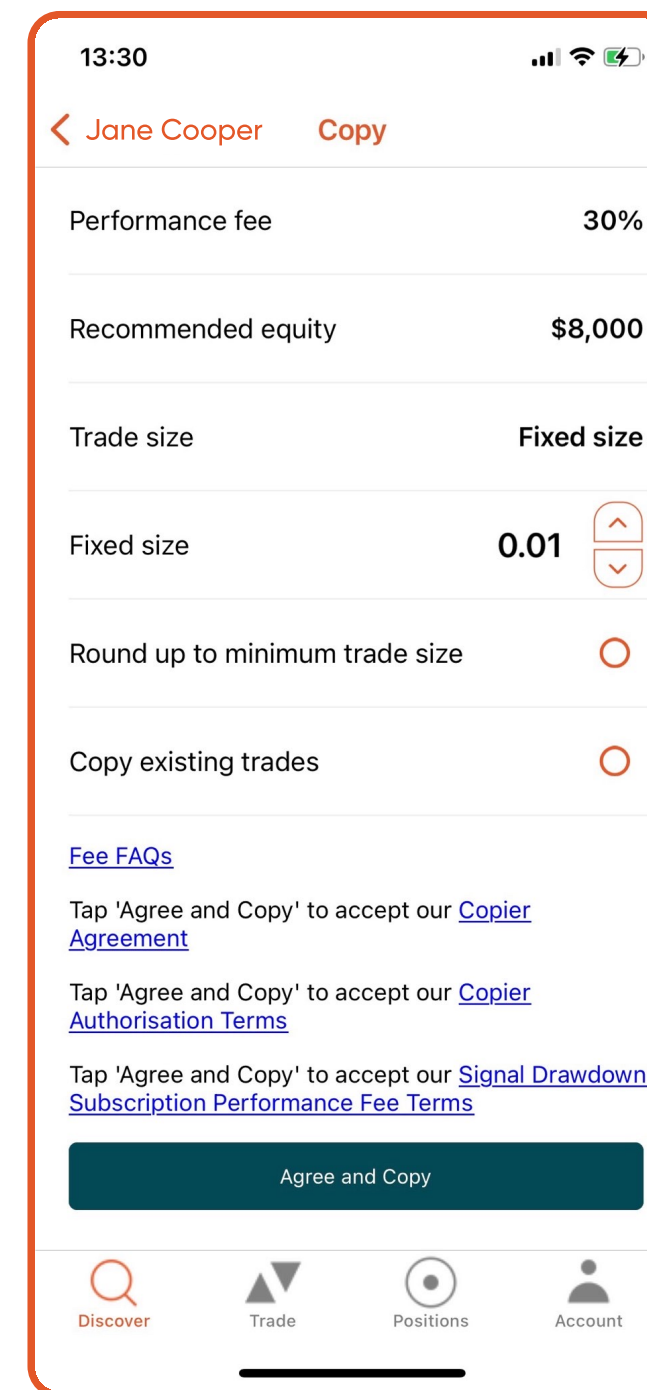

2 Check the user's performance and click copy

Three Copy Strategies

1. Fixed Size = all copy trades are fixed to one size

- E.g., If the size is set to 0.1 lot.
- The signal provider places 10 lots of XAUUSD; the copier will place 0.1 lot of XAUUSD+
- The signal provider places 0.01 lot of XAUUSD; the copier will still place 0.1 lot of XAUUSD+

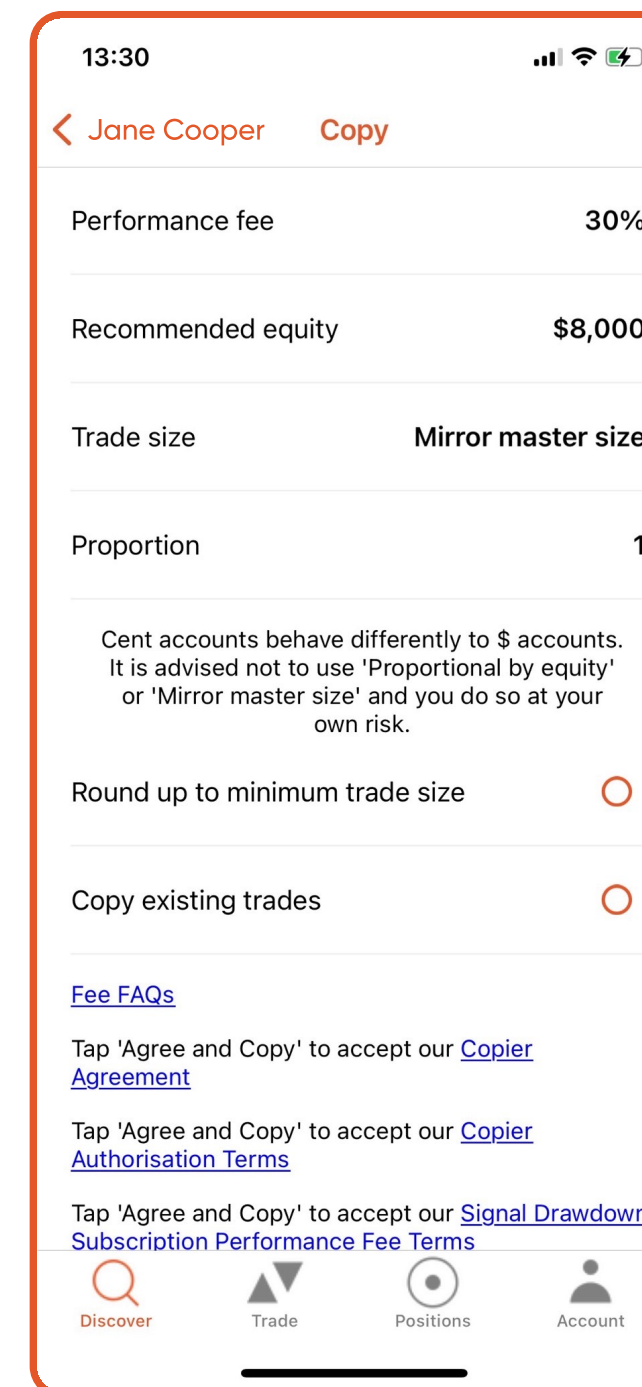

- ← All copy trades are fixed to one size
- ← Ensure no trades are missed
- ← Any open trades will be copied

Three Copy Strategies

2. Mirror Master Size = copy master trade size irrespective of account size

- E.g., The signal provider places 10 lots of XAUUSD; the copier will place 10 lots of XAUUSD+
- The signal provider places 0.01 lot of XAUUSD; the copier will place 0.01 lot of XAUUSD+

← Copy master trade size irrespective of account size

← Ensure no trades are missed

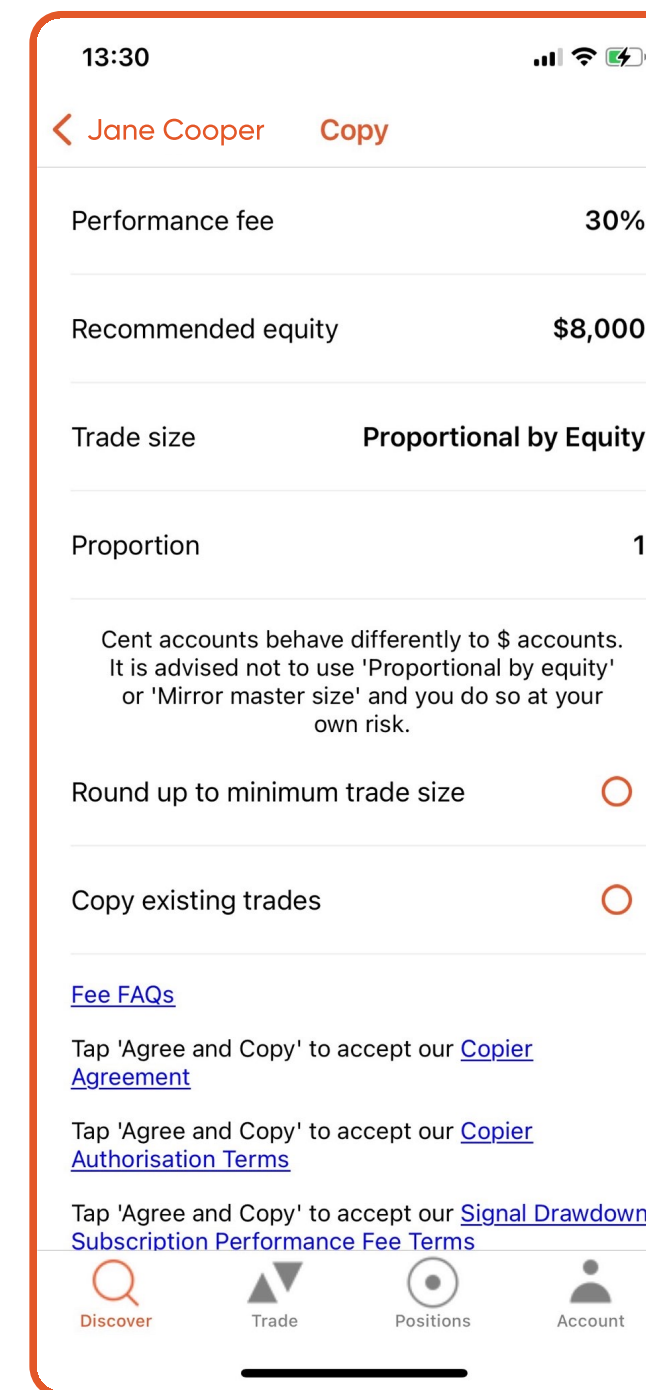

← Any open trades will be copied

Three Copy Strategies

3. Proportional by Equity = the trade size is proportional to account equity. The copier can reduce or amplify their exposure to the size of trades

- E.g., If the proportion is set to 2 and the signal provider's equity is US\$100, then the copier's equity will be AU\$1000
- If the signal provider uses a US\$5 margin to open a trade, the copier will use an AU\$100 margin to open a position of the same symbol.
- $100 = (5 / 100) * 2 * 1000$
- (The signal provider's used margin for this trade / The signal provider's equity) * proportion * The copier's equity

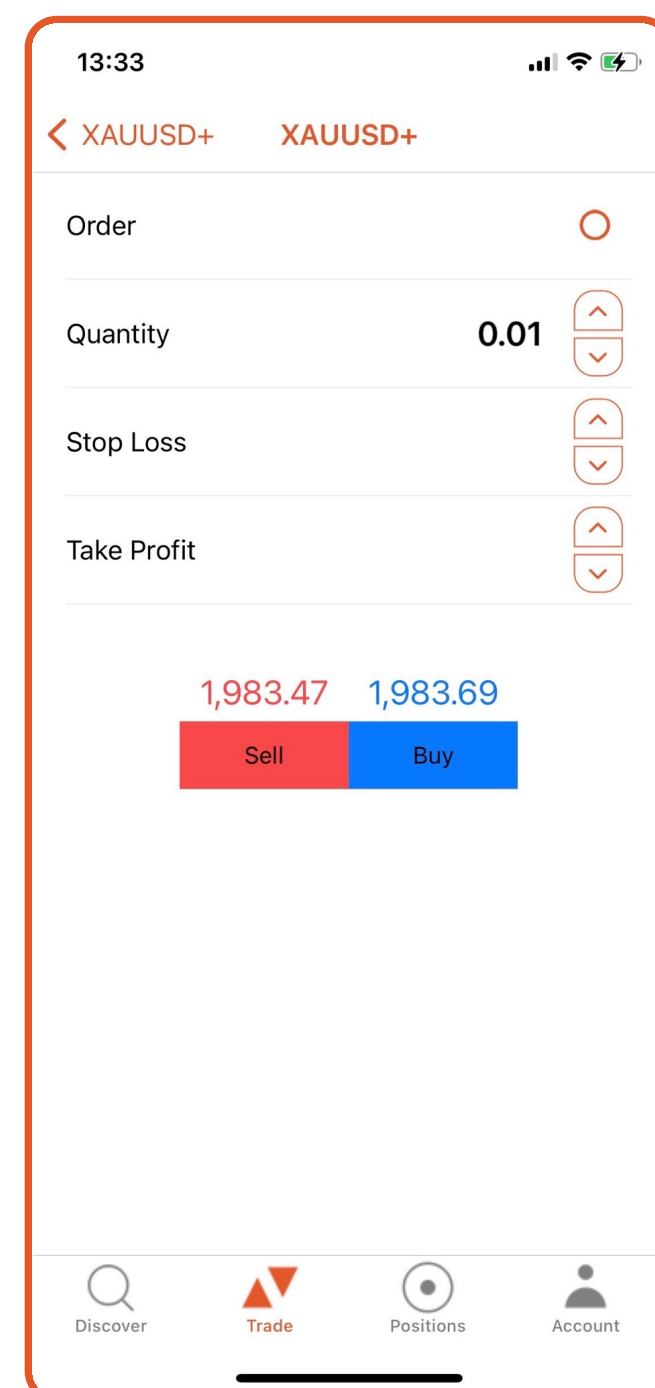

← The trade size is proportional to account equity. The copier can reduce or amplify their exposure to the size of trades

← Ensure no trades are missed

← Any open trades will be copied

Trade

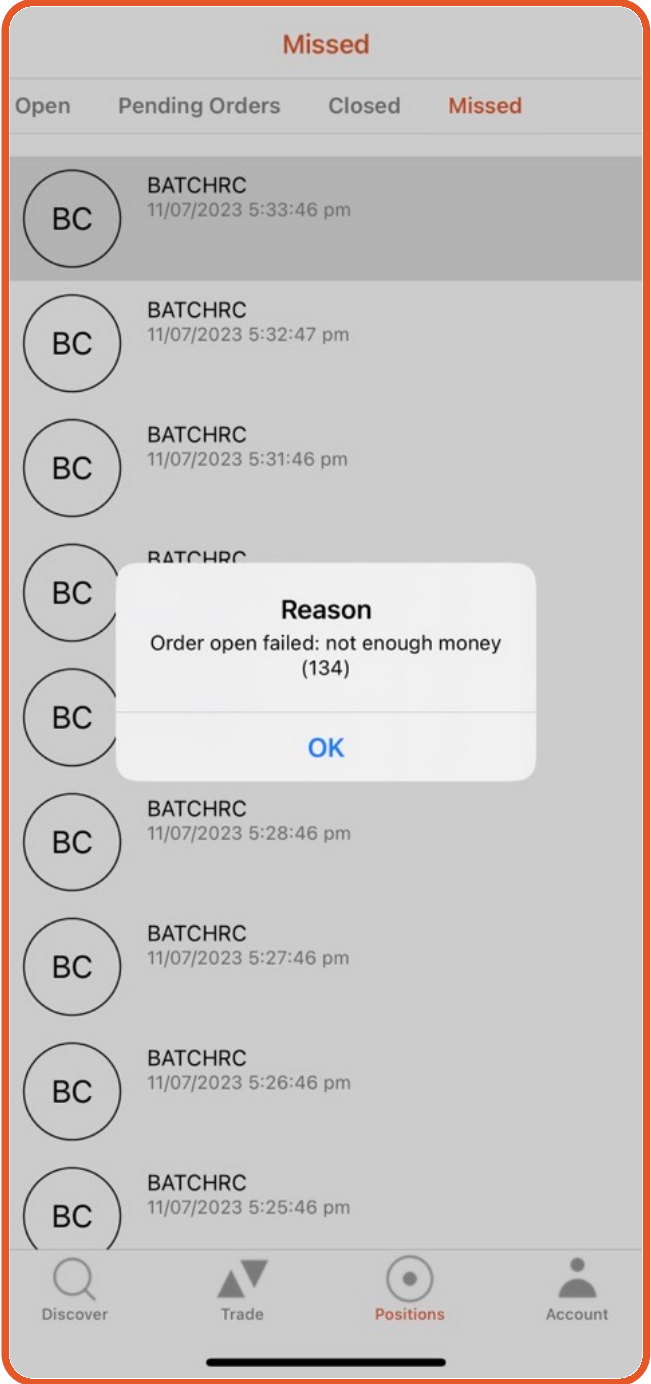

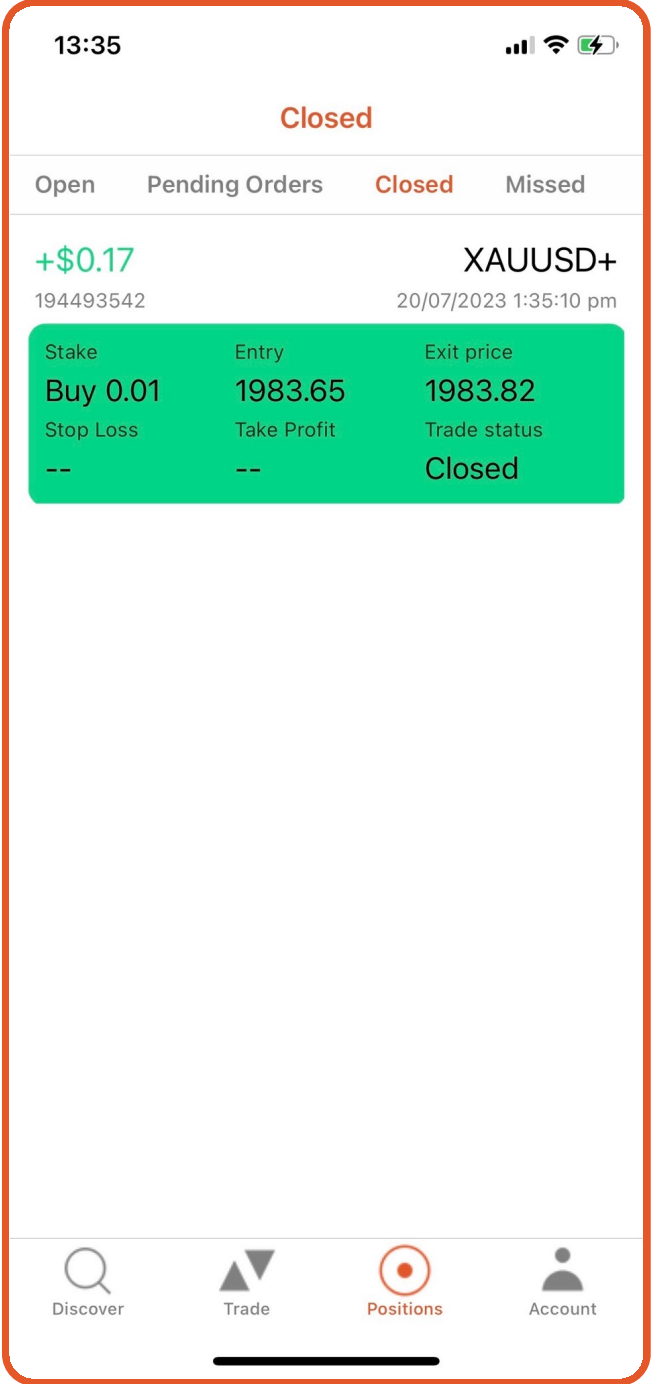

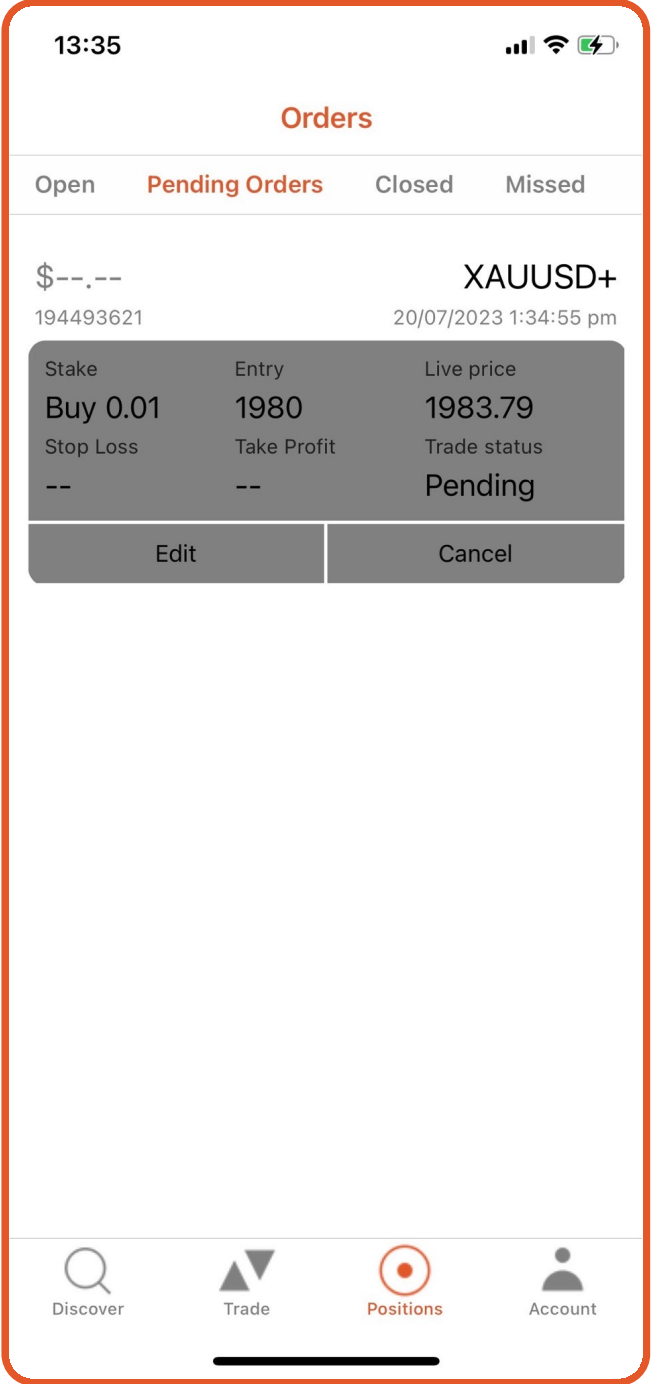

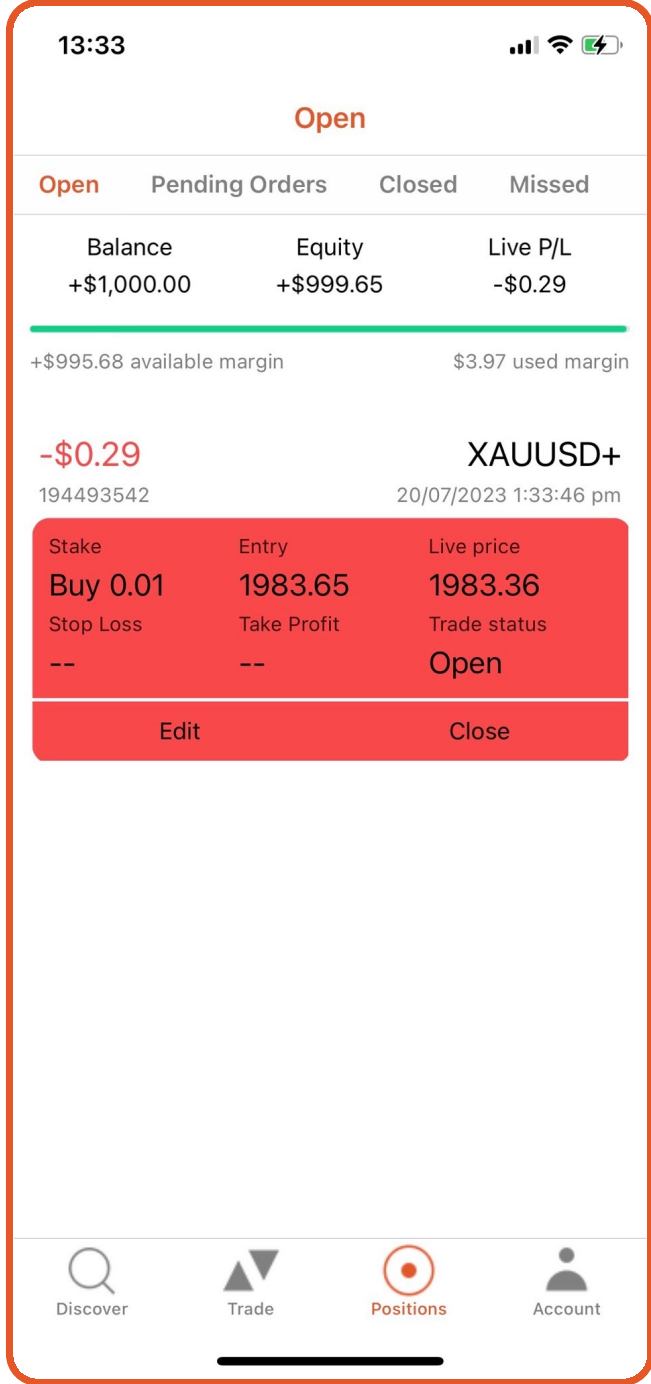

← Place pending order

- Stop
- Limit

1 Order: Place pending order

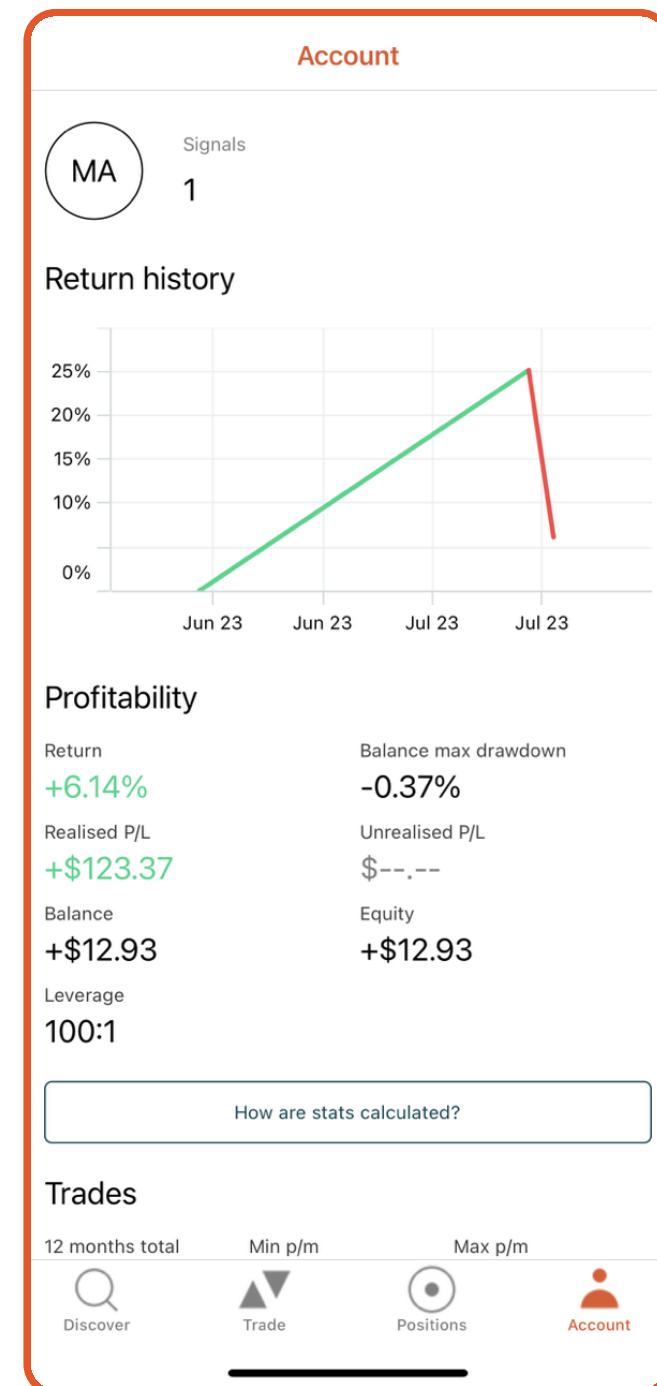

Positions

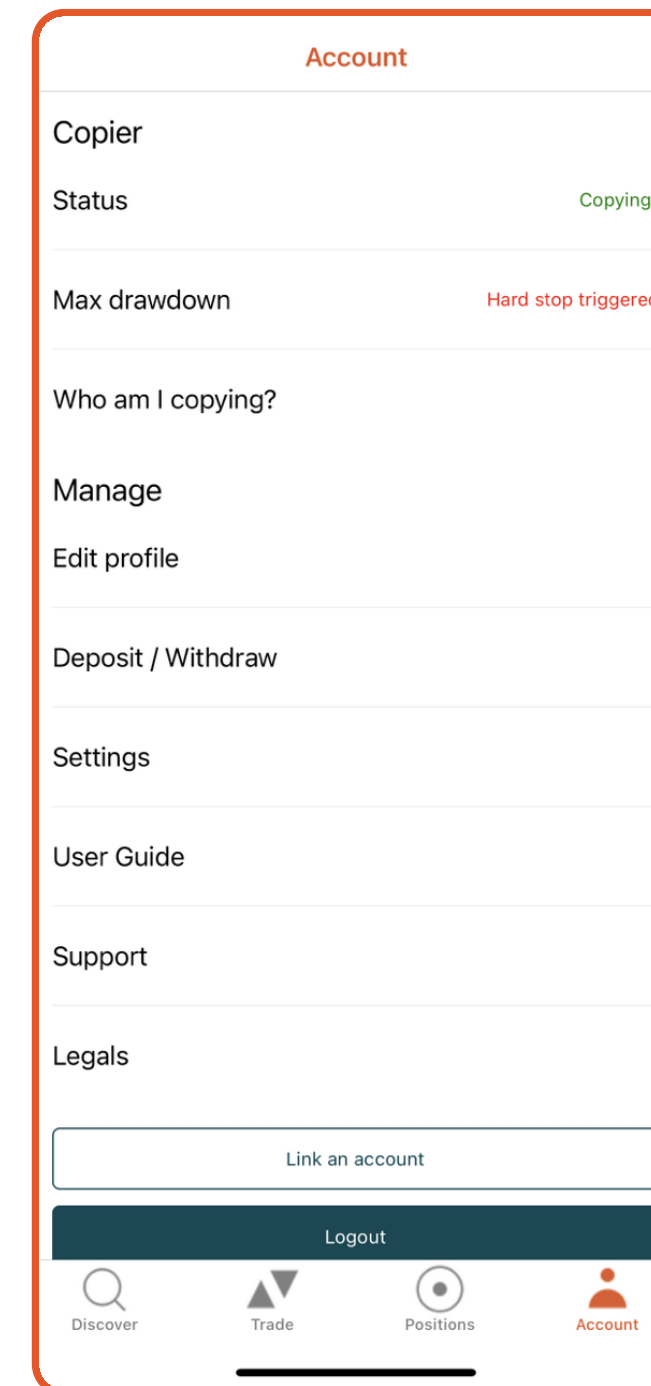

1 View open, pending orders, closed positions or missed position

Account (Copier)

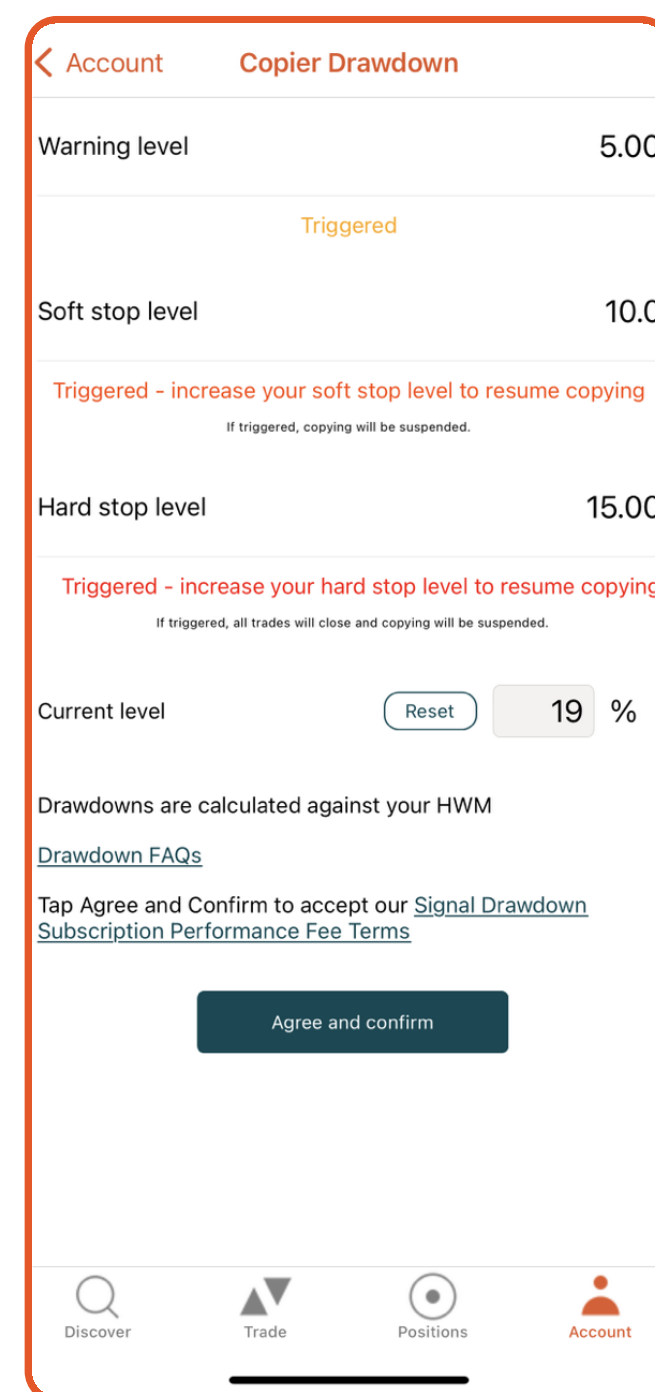

1 View your own performance

2 If you are copying, it will show Copying in Status

Max Drawdown (Three levels)

Triggers an alert

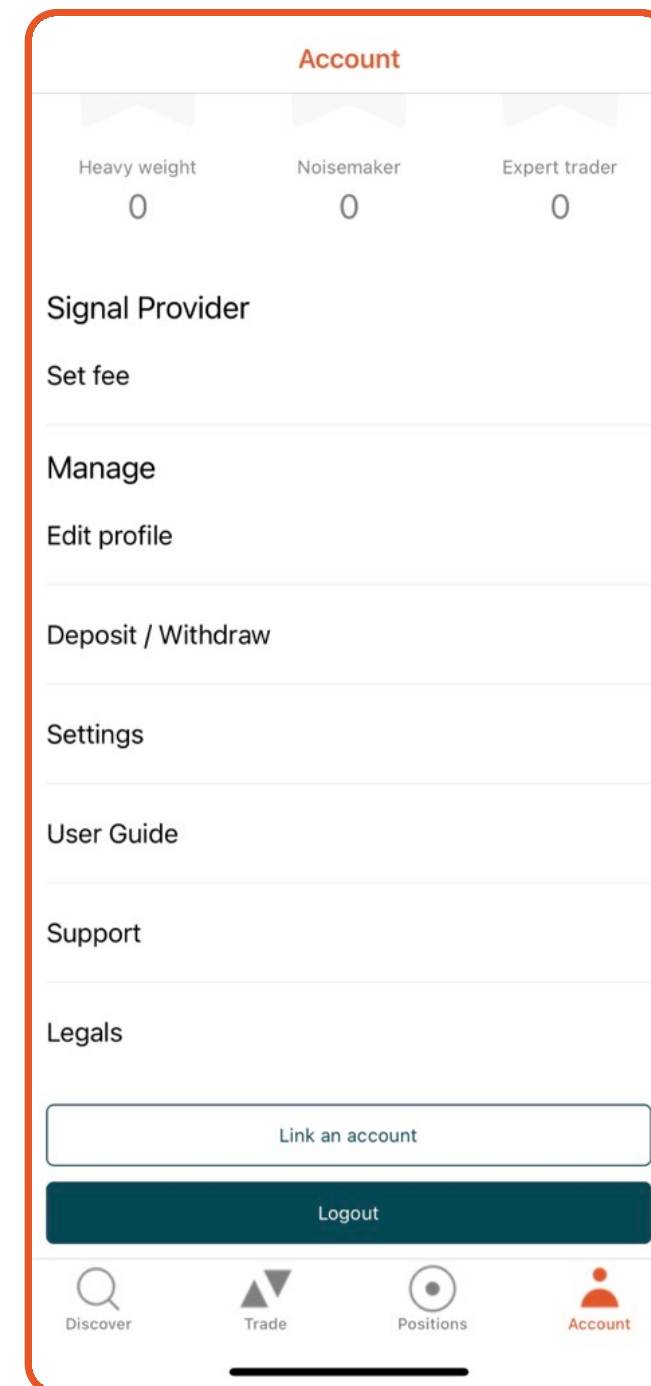

Suspends any future trades from any Signal

Closes all copy trades

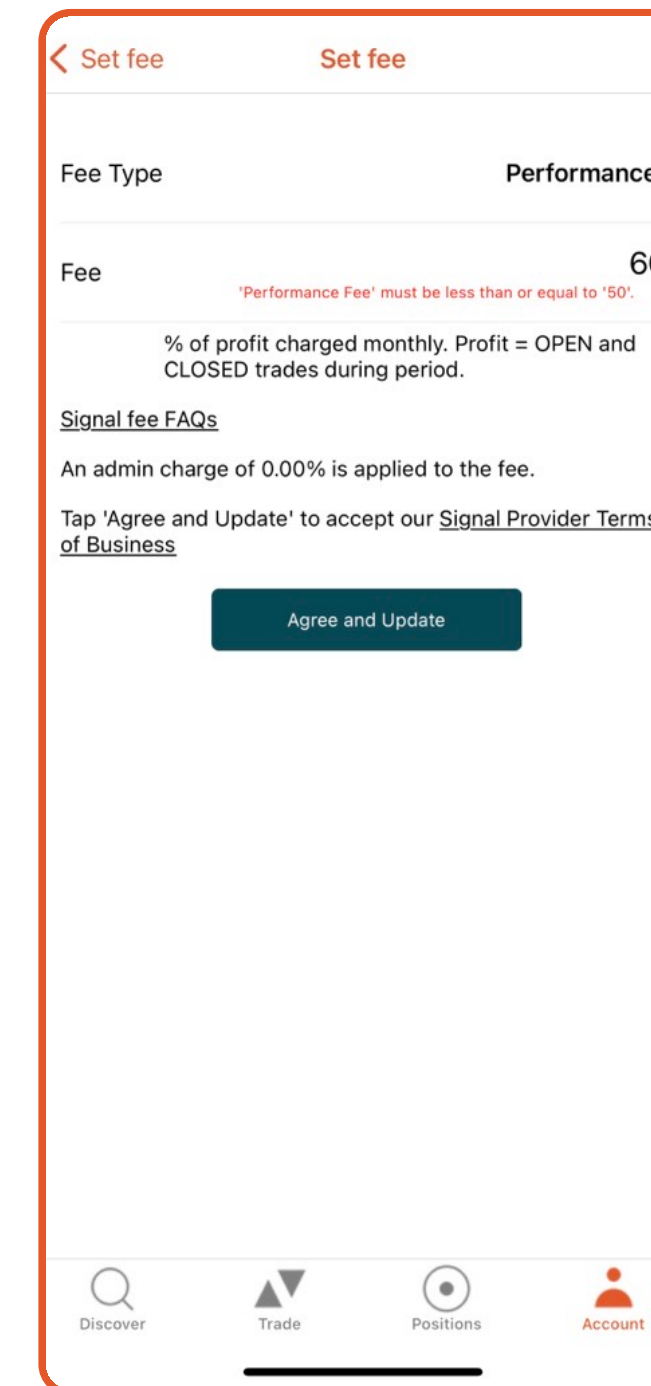

Allows you to set a new start equity level for your max drawdown settings

Account (Signal Provider)

1 Set fee

2 The performance fee is based on the high-water mark mode
